Landscaper Agreement to Join Quiet Princeton's Recommended List of Landscapers

As a **Quiet Landscaper**, you can agree to offer a lawn-care option which eliminates the use of leaf blowers on the homeowner's property, or which uses electric leaf blowers only. This plan provides an option for the landscaper and the homeowner who wish for quiet and low pollution. It is completely voluntary.

Benefits to landscapers who participate are that they will be recommended and advertised to Princeton homeowners by Quiet Princeton.

INSTRUCTIONS to landscaper. Please **sign at the bottom** to confirm your agreement to participate, and mail one copy of the form back to Quiet Princeton in the enclosed envelope.

_____ *Insert name of your company*
wishes to enroll as a Quiet Landscaper and agrees to the following:

- ✓ We will inform our NEW customers that they can ask for no gas-powered leaf blowers and have "Quiet Landscaping" procedures instead, either using electric leaf blowers or none at all.
- ✓ We will inform our EXISTING customers of this Quiet Landscaping option.
- ✓ For customers who choose "Quiet Landscaping", we will not use gas-powered leaf blowers. We will use rakes, brooms, electric leaf blowers, or will leave clippings and leaves in place, as desired by the homeowner.

An extra charge may be added if raking requires extra time.

We agree to the above plan and wish to be included as a "Quiet Landscaper".
